Installing the License

Your PTC Arbortext software needs the node-locked FlexNet trial license you requested from the PTC. The license file is attached to an email from PTC. Save the attached license file to a folder on the computer where you installed your software and remember the location.

Perform one of these actions:

- Create a **PTC_D_LICENSE_FILE** environment variable and set its value to the license file path. When you run PTC Arbortext software for the first time, it checks the path to the license as specified by **PTC_D_LICENSE_FILE**. If the path is not correct, you'll be prompted to provide it.
- Launch PTC Arbortext Editor from the PTC program group. When the **Licensing Error** dialog box appears, you can enter the license file path or browse to the file location. Click **Retry** to launch PTC Arbortext Editor. If it's successful, you can click **Save** to save the file location to the **PTC_D_LICENSE_FILE** environment variable.
