The next textregions are formatted with the "ocupy page width" option on.
The printout sometimes cuts off words at the right margin partially.

You can use Mathcad to perform, document, and share all your calculations and design work. Mathcad's visual format and scratchpad interface integrate standard mathematical notation, text, and graphs in a single worksheet - making Mathcad ideal for knowledge capture, calculation reuse, and engineering collaboration. Mathcad allows you to design and document your engineering work with unit-aware calculations.
