Title	E-books conversion scripts for PTC Mathcad Prime 3.1
Description	<ul style="list-style-type: none"> E-books were collections of Mathcad worksheets in versions 15.0 and earlier. This legacy content is easily converted to Mathcad Prime worksheet format. All the worksheets from the E-books can run in Mathcad Prime. You can convert your own copy of the E-books. This is extremely simple with the built in converter - use the file browser to identify the MCD or XMCD files you want to convert and click convert. It puts a new file (without modifying the original) right next to the original file, now in a MCDX format, ready for Mathcad Prime 3.1. PTC has created scripts to help you convert the table of content files to HTML and launch the worksheets from a browser. There is one script tailored specifically for each of the 8 e-books. Any customers who have built their own e-books, this script can easily be modified using Notepad. With these 8 scripts you can create Mathcad Prime e-books with legacy content.
Applies To	<ul style="list-style-type: none"> Mathcad Prime 3.1
Cause	
Resolution	<ul style="list-style-type: none"> E-books conversion scripts package for Mathcad Prime 3.1 can be downloaded from here For more information refer to the document here or "Mathcad Ebooks.docx" within the package.
